

EXECUTIVE SUMMARY

Machine Learning Engineer specializing in building scalable ML systems for content understanding, policy enforcement, and decisioning across platforms. Proficient in designing intelligent systems using PyTorch, TensorFlow, and JAX to enhance content quality and safety. Experienced in multimodal ML for text, audio, image, and video, ensuring high-quality user experiences.

TECHNICAL EXPERTISE

- **Cloud & Infrastructure:** AWS (Lambda, EKS, API Gateway, IAM, VPC, CloudWatch), Azure (Functions, VNet, Entra ID, ARM/Bicep, Azure Monitor), GCP (GKE, Cloud Monitoring, IAM, VPC, Cloud Storage), DNS routing, SSL/TLS certificates
- **DevOps & Platforms:** Terraform, Kubernetes, Helm, GitOps (ArgoCD/FluxCD), Docker, CI/CD (Jenkins, GitHub Actions, SonarQube)
- **Monitoring & Security:** Prometheus, Grafana, CloudWatch, Logging, SLO/Error Budgeting, Incident Response
- **Languages & Tools:** Python, Bash, Golang, Linux & Windows Server Administration, Git, JavaScript/Node.js

PROFESSIONAL EXPERIENCE

Cloud & DevOps Engineer | Arqon Consulting | Bay Area, CA | Jan 2025 - Present

Supported production multi-cloud infrastructure and CI/CD workflows

- Architected resilient AWS/Azure environments, maintaining **99.9% uptime** for critical applications.
- Enhanced CI/CD workflows with GitHub Actions and Jenkins, achieving sub-60s deployments and seamless rollbacks.
- Developed automated release pipelines to ensure consistent and traceable deployments.
- Automated infrastructure provisioning using Terraform, Ansible, and Python to boost reliability and reduce MTTR.

Cloud Engineer | Ventera Group | Bay Area, CA | Aug 2023 – Jan 2025

Built scalable cloud platforms and deployment systems for enterprise applications

- Oversaw containerized service lifecycle with ACR/ECR and Nexus, ensuring secure **artifact management**.
- Created CI/CD pipelines that increased deployment efficiency by over 60% and minimized release errors.
- Utilized **Terraform modules** for rapid environment provisioning, achieving setup in under 10 minutes.
- Implemented **Docker/Kubernetes** solutions for rapid service readiness and scalable ingress routing.

EDUCATION & PROFESSIONAL DEVELOPMENT

- **A.S. Computer Science & Engineering**, Los Angeles Harbor College (2025–2027)
- **Certifications & Tooling:** AWS SAA | AWS CCP | Terraform | GitHub Actions | Jenkins | Docker | Kubernetes | CloudWatch
- **Core Strengths:** Ownership, cross-functional collaboration, problem-solving, systems thinking

ADDITIONAL

- **Languages:** English (Fluent) | Urdu (Fluent) | Hindi (Conversational)
- **Citizenship:** United States
