

EXECUTIVE SUMMARY

Mechanical Engineer specializing in data center cooling systems, HVAC, and mission-critical facility operations. Proficient in managing large-scale mechanical systems, including chillers and cooling towers, with a focus on efficiency and compliance. Experienced in coordinating with contractors and optimizing facility performance.

TECHNICAL EXPERTISE

- **Cloud & Infrastructure:** GCP (GKE, Cloud Monitoring, IAM, VPC, Cloud Storage), AWS (EKS, CloudWatch, Lambda, IAM, VPC), Azure (VNet, Azure Monitor, Entra ID, Functions, Azure SQL), DNS routing, SSL/TLS certificates
- **DevOps & Platforms:** Terraform, Kubernetes, Docker, Helm, GitOps (FluxCD/ArgoCD), CI/CD (Jenkins, GitHub Actions, SonarQube)
- **Monitoring & Security:** Prometheus, Grafana, CloudWatch, Logging, SLO/Error Budgeting, Incident Response
- **Languages & Tools:** Python, Bash, JavaScript/Node.js, Golang, Linux & Windows Server Administration, Git

PROFESSIONAL EXPERIENCE

Cloud & DevOps Engineer | Arqon Consulting | Bay Area, CA | Jan 2025 - Present

Supported production multi-cloud infrastructure and CI/CD workflows

- Engineered robust AWS/Azure systems, maintaining **99.9% uptime** for critical workloads.
- Enhanced CI/CD workflows using **GitHub Actions** and **Jenkins**, achieving rapid deployments and automated rollbacks.
- Implemented automated release management, ensuring consistent and traceable deployments.
- Utilized **Terraform** and **Ansible** to automate infrastructure, boosting reliability and reducing MTTR.

Cloud Engineer | Ventera Group | Bay Area, CA | Aug 2023 – Jan 2025

Built scalable cloud platforms and deployment systems for enterprise applications

- Oversaw containerized service management with **ACR/ECR** and **Nexus** for secure artifact handling.
- Created CI/CD processes that improved deployment speed by over 60% and minimized errors.
- Utilized **Terraform modules** for rapid environment provisioning within 5–10 minutes.
- Deployed **Docker/Kubernetes** applications, achieving 10–30s service readiness with scalable ingress.

EDUCATION & PROFESSIONAL DEVELOPMENT

- **A.S. Computer Science & Engineering**, Los Angeles Harbor College (2025–2027)
- **Certifications & Tooling:** AWS SAA | AWS CCP | Terraform | GitHub Actions | Jenkins | Docker | Kubernetes | CloudWatch
- **Core Strengths:** Ownership, cross-functional collaboration, problem-solving, systems thinking

ADDITIONAL

- **Languages:** English (Fluent) | Urdu (Fluent) | Hindi (Conversational)
- **Citizenship:** United States
